### COMB SAGE TEA IN FADED OR GRAY HAIR

If Mixed With Sulphur It Darkens So Naturally Nobody Can Tell.

Grandmother kept her hair beautifully darkened, glossy and attractive with a brew of Sage Tea and Sulphur. Whenever her hair took on that dull, faded or streaked appearance, this simple mixture was applied with wonderful effect. By asking at any drug store for "Wyeth's Sage and Sulphur Compound," you will get a large bottle of this old-time recipe, improved by the addition of other ingredients, all ready to use, at very little cost. This simple mixture can be depended upon to restore natural color and beauty to the hair.

A well-known downtown druggist says everybody uses Wyeth's Sage and Sulphur Compound now, because it darkens so naturally and evenly that nobody can tell it has been applied—it's so easy to use, too. You simply dampen a comb or soft brush and draw it through your hair, taking one strand at a time. By morning the gray hair disappears; after another application or two, it is restored to its natural color and looks glossy, soft and beautiful.—Adv.

A fact:

At the Capitol Building in Washington, at the Waldorf-Astoria in New York and at scores of other such places—where you would naturally expect only high-priced cigarettes to sell—Fatimas lead in sales. But important as these sales are, they're but a "drop in the bucket" compared with the MILLIONS of Fatimas smoked every day by the big, plain, "you-and-me" public.
